

## Card patchwork quilt

If you don't want to use fabric to create your quilt, you could make a version out of card. This'll be a little more fragile, but it's the easiest way to make a quilt without fabric.

### What you'll need:

- Coloured card
- Holepunch
- Scissors
- Ribbon or string
- To decorate: felt tips, paint, glue, coloured paper or card, and any other materials to decorate the squares.

### Instructions:

Follow the steps for the tied together quilt, but cut your squares out of coloured card and make holes in each corner with a hole punch. Decorate your squares and tie them together to create your quilt. Using lots of different colours will help to keep that patchwork feel.
